This track has an excellent style with many tastefully used details and expert production!

We have reviewed your track, "Do Another 55 With You - Radio Edit." These things were awesome:

This track starts off with a clean piano and some very funky and fun synths. The beat is chill and the kick has great punch. The bass comes in with a heavy and resonating presence that contrasts very well with the rest of the sparkling musical elements. Overall, this track sounds very professionally mixed and performed. There is a clean and chill pop to the music that could be described as "ear candy". It's fun to listen to, engaging, detailed, and chill. The synth that comes in at 2:20 adds a very beautiful and emotional tone to the song which really works to bring it all together. It sounds great on its own and would definitely work as a collaboration with a vocalist.

This would take you to the next level:

Overall, the song is extremely well crafted and sounds very polished and resolved. There is no specific feedback for improvement.

We thought it was an overall solid release and it is definitely ready to be played on the airwaves.
