A great track, a top pick for us!

We have reviewed your track, "Living In The Mystery (Electro Version)." These things were awesome:

This track starts with an awesome intensity with the driving beat. The quick woodblock-esque sample gets the brain moving, amping the energy up and increasing focus. The bass is deep and resonant with a huge presence that is not overpowering but rather fulfilling and vibrating. Dark synths and sound effects create an ambient and expansive soundscape for the vocals. The vocals have a very unique style. There is a cool effect which gives the vocals a vaguely machine-like feeling which meshes very well with the music. The hook of the song comes to life with a very melodic, emotional, and beautiful sound. "It's a mystery, right now a fantasy, right now a fantasy, coming from inside of me, and I need to know how it's gonna go." These lyrics have an iconic and symbolic feel that makes them universal in a sense, giving them a wide appeal and a catchy style. The mixing, production, and performance are all very professional and polished. This track stands out as a great creation, exuding its own creative vibe that is perfectly honed.

This would take you to the next level:

Overall, the song is extremely well crafted and sounds very polished and resolved. There is no specific feedback for improvement.

We thought it was an overall solid release and it is definitely ready to be played on the airwaves.
